Rehoboth Community Electricity Aggregation New Prices

Our Town's electricity supply program has been renewed. New prices go into effect in December and will be fixed through November 2025.

		
Standard Product	Plus (formerly called Green 100%)	National Grid Basic Service
15.784 ¢/kWh All Rate Classes	17.372 ¢/kWh All Rate Classes	18.213 ¢/kWh Residential
No additional renewable energy	Adds voluntary renewable energy (MA Class I RECs) to total 100%	No additional renewable energy
December 2023 through November 2025	December 2023 through November 2025	November 2023 through July 2024

**Savings cannot be guaranteed compared to the utility's Basic Service rate which changes every six months for residential and commercial customers, and every three months for industrial customers. The aggregation program seeks to provide price stability and average savings over the full term of the program, but because future basic service rates are not known, there is no guarantee of savings.*

Questions about the changes? Join a virtual info session on Oct 26, 2023 at 6 PM or Nov 9, 2023 at 2 PM. The links are available on the program site: MassCEA.com/Rehoboth

The municipality issued social media posts with renewed program pricing as a method to notify residents and businesses of the upcoming program changes and their options to participate.

Announcement to local/regional media

Rehoboth Community Electricity Aggregation Program - Renewed Through 2023

POSTED ON: DECEMBER 22, 2020 - 2:29PM

FOR IMMEDIATE RELEASE

Rehoboth Community Electricity Aggregation program, launched in January 2016 and part of a 25-community electricity buying group, has been renewed through the end of 2023

Rehoboth, MA – 12/21/2020 – The town of Rehoboth announces that it has renewed its electricity aggregation program for another 35 months starting in January 2021. **No action is required on the part of the current program participants** as they will continue their electricity service automatically with the new supplier, Constellation.

The Rehoboth CEA program is part of a larger electricity purchasing group, providing Rehoboth residents and businesses with competitive choice and longer-term price stability. During the first five years of the program, it has provided significant value to the community.

"We're very excited that this successful program is entering its sixth year of operation - it has been a great benefit for the community," said the Interim Town Administrator.

The new default program rate is \$0.10470 per kilowatt hour (kWh) from January 2021 through December 2023; this default rate meets all state renewable electricity standards. The National Grid Residential Basic Service electricity rate is \$0.12388/kWh for the six-month period from November 2020 through April 2021. In addition, the program also offers two options with more renewable electricity than required by state law. More information about the program and all the options can be found on the program website masscea.com/Rehoboth.

The program rates, resulting from a competitive bid, are fixed over the 35 months of the electric supply agreement (ESA) from January 2021 through December 2023. The Rehoboth CEA product offerings and rates will be:

National Grid rate		CEA optional rates	
Basic service (residential customers)	Rehoboth default rate	Rehoboth Local Green 50%	Rehoboth Local Green 100%
Meets state renewable electricity standards	Meets state renewable electricity standards	50% in addition to state renewable electricity standards	100% in addition to state renewable electricity standards
\$0.12388/kWh	\$0.10470/kWh	\$0.12244/kWh	\$0.14019/kWh
Duration November 2020- April 2021	Duration: January 2021 - December 2023 Products described as Green contain renewable electricity above that required by state law. The additional renewable electricity qualifies for MA Class I designation. Local refers to geographic areas permitted under MA Class I designation, namely New England, New York and eastern Canada.		

The municipality issued a press release with renewed program pricing as a method to notify residents and businesses of the upcoming program changes and their options to participate.
