FALL RIVER COMMUNITY ELECTRICITY AGGREGATION

Thursday, September 25

The City of Fall River is pleased to announce that our electricity supply program, Fall River Community Electricity Aggregation (CEA) has been renewed! The program is designed to help our community members manage electricity supply costs and increase the use of renewable energy since 2016. You currently receive one of Fall River's supply options. This letter explains upcoming changes to the products and your options.

Fall River's new pricing takes effect starting on your November 2025 meter read.

All Fall River CEA prices are decreasing from current contract pricing.

For most customers, no action is needed to receive the new pricing.

The Fall River CEA program launched in 2016 and has since collectively saved \$24,800,000 for the community, or \$1,140 per average residential customer, compared to National Grid's supply cost.

FALL RIVER'S NEW SUPPLY PRODUCTS

The City is pleased to have secured lower rates for all Fall River CEA products until November 2028. Fall River CEA's default product, Fall River Standard, will cost less than National Grid's Basic Service residential supply when the new prices go into effect.

All new Fall River CEA product prices will be fixed for 36 months, from November 2025 until November 2028 meter reads.

FALL RIVER STANDARD (Auto-enroll)	FALL RIVER PLUS (Option)
14.346 ¢/kWh No additional renewable energy (63% in 2025)	15.475 ¢/kWh Adds renewable energy to total 100% (100% in 2025)

The National Grid Basic Service residential price is 15.484 ¢/kilowatt-hour (kWh) from August 1, 2025 – January 31, 2026, and contains the minimum amount of renewable energy required by the State. Because National Grid prices change frequently and future rates are unknown, future savings cannot be guaranteed.

- No action is necessary to receive the new pricing for your current Fall River supply option, unless you have voluntarily placed a "supplier block" on your National Grid account, which prevents any changes.
- You may switch to another Fall River supply option at any time OR leave the program at any time, without penalty and return to Basic Service with National Grid. To switch options or leave the program, call our program's electricity supplier, Constellation, at (833) 461-0813, or submit a request at [MassCEA.com/Fall-River](https://www.masscea.com/Fall-River).

FALL RIVER CURRENT & NEW PRICES

	Fall River Standard		Fall River Plus	
	Current	New	Current	New
Price	15.784 ¢/kWh	14.346 ¢/kWh	17.372 ¢/kWh	15.475 ¢/kWh
Duration	Dec 2023 until Nov 2025	Nov 2025 until Nov 2028	Dec 2023 until Nov 2025	Nov 2025 until Nov 2028
Required Renewable Energy in 2025	63%	63%	63%	63%
Voluntary Renewable Energy (Class I sources) in 2025	0%	0%	37%	37%
Total	63%	63%	100%	100%
Supplier	Constellation	Constellation	Constellation	Constellation

- Program prices apply to service beginning and ending on the days of the month that your meter is read.
- Program prices only apply to the Supply portion of your electric bill. National Grid will continue to set the Delivery charges on your electric bill.
- At the end of the pricing term in November 2028, you will be automatically renewed in your current product, which may have a higher or lower price and a different percentage of voluntary renewable energy as negotiated by the City. The City will announce price changes before any such change takes effect. Product details will always be available on the City's website for the program: [MassCEA.com/Fall-River](https://www.mass.gov/info-details/fall-river).
- The State requires all electricity products to include a minimum amount of renewable energy. The City voluntarily adds more Class I renewable energy to Fall River Plus. Class I renewables come from new sources located within, or delivered to, New England, and were built after 1997. Wind, solar, and low-impact hydropower are some of the most common sources that qualify for Class I. For more details on Class I sources and the minimum amount of renewables required by the State, see <http://www.mass.gov/service-details/program-summaries>.
- Information about National Grid Basic Service: visit www.mass.gov/info-details/basic-service-information-and-rates, or call National Grid at (800) 322-3223.

NEXT STEPS

- The first bill to show the new pricing will be the bill you receive showing usage from your November 2025 to December 2025 meter read. Most customers can expect to receive this bill in December 2025.
- To check if you have a "supplier block", and/or remove it, contact National Grid at (800) 322-3223. If you have a block and do not remove it, your account will be returned to National Grid Basic Service on your November 2025 meter read.
- Tax-exempt small business customers participating in the program must provide a copy of their tax-exemption certificate directly to Constellation via email at CNETaxForms@constellation.com or mail to Attn: Tax Team, 1001 Louisiana Street, Suite 2300, Houston, TX 77002 to maintain tax-exempt status.
- If you are receiving electricity supply from a competitive supplier, you may have signed up after this letter was created. To continue to receive your electricity from that competitive supplier and prevent any possible early termination fees, **you must contact Fall River's supplier to opt out of the program**. You may do so using the online form on [MassCEA.com/Fall-River](https://www.mass.gov/info-details/fall-river), or by calling the supplier at (833) 461-0813.

QUESTIONS & SUPPORT

- For questions or troubleshooting, please contact the town's consultant that manages the Program, Good Energy, by using the online form at [MassCEA.com/Fall-River](https://www.mass.gov/info-details/fall-river), or by calling (844) 627-7232.
